

# Safety Prevention Program

The Morgan Nick Foundation would like to invite you to participate in NetSmartz, our safety prevention program, for the upcoming school year 2008-2009.

NetSmartz is an interactive, educational safety resource from the National Center for Missing and Exploited Children and Boys & Girls Clubs of America that uses age-appropriate, 3-D activities to teach children how to be safer when using the internet. The goal of the workshop is to extend the safety awareness of children and empower them to make responsible decisions online and in real life. This is accomplished by teaching:

- The Buddy System
- Checking First
- Not ok Touches
- No- Go- Tell

The staff from the Morgan Nick Foundation is available to come out to your school at no charge, and present this up to date, vital, comprehensive safety prevention education.

Please contact us to take advantage of this free program . Our calendar is filling up fast, so reserve your date as soon as possible.

With Hope,

**Rhonda Adams**  
Director of Education and Outreach
